

Ongoing construction of the shared pedestrian and cyclist pathway from Chuter Avenue to Civic Avenue

M6 Stage 1

February 2025

Transport for NSW acknowledges the Bidjigal, Dharawal, Gweagal and Gadigal clans of the Eora Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

As part of the M6 Stage 1 project, construction of the shared pedestrian and cyclist pathway continues in February 2025.

Once the pathways are constructed, there will be renewed natural landscapes, green spaces, and recreational facilities for the community to enjoy.

When and where we'll be working

In February, work continues between Civic Avenue and Chuter Avenue through Scarborough Park. Our standard work hours are from **7am to 6pm, Monday to Friday and 8am to 6pm, Saturday**.

What work are we doing?

Our day work will include:

- formwork, pouring concrete and constructing Scarborough Park boardwalks and President Avenue bridge structures, including the precast deck
- welding, painting, scaffolding and installation of anti-throw screens, handrails, and drainage pipes for President Avenue bridge
- installing steel boardwalk structures
- upgrading drainage in Scarborough Park
- excavating for underground utilities, for future pathway lighting along the alignment
- maintaining environmental controls to manage erosion and sediment

- pouring concrete for the shared pathway
- placement and compaction of the foundation based on the shared pathway, including the use of a vibration compact roller
- delivering and removing materials, such as gravel, sandstone, concrete, reinforcement, and ongoing earthworks and landscaping via sites on Civic Avenue, Chuter Avenue and President Avenue.

Our equipment includes excavators, cranes, tippers, telehandler, concrete pumps, concrete trucks, concrete saws, compactors, rollers, lighting towers, hand tools, vac truck, trucks and light vehicles such as utes.

What will this mean for you?

The footpath in Scarborough Park (from Civic Avenue to Chuter Avenue) remains closed throughout construction. Access to Scarborough Park and Civic Reserve is maintained through alternate entrances on Civic Avenue near the intersection of Marshall Street and south of the intersection at Annette Street, as well as on Chuter Avenue near the intersection of Robinson Street. Temporary changes to traffic may occur near our site gates on President Avenue to safely facilitate the pedestrian pathway on the northern side of President Avenue remains temporarily closed with pedestrian and cyclist access available on the southern side. Please follow the direction of signage and traffic control.

Managing our impacts

We will manage dust by using a water cart and manage noise by using squawkers instead of beepers on vehicles. We'll turn off equipment and vehicles when they are not being used. We use noise and dust monitoring to measure our impact to the local community.

Respite for one hour will occur every three hours during high impact day activities. High impact work on Saturday will finish by 1pm.

Please follow our traffic signs and the directions of the traffic controller when we are working close to the footpath or road.
