

New Sydney Fish Market

Community update

January 2023

11kV Feeder Power Upgrade

The NSW Government is delivering a new Sydney Fish Market which will retain its authentic experience and strengthen its position as one of Australia’s leading tourist destinations.

Multiplex is currently undertaking works to upgrade the power supply for the new Sydney Fish Market. This work involves trenching and installing conduit and cabling along a 1.8km route from Lyons Road in Camperdown to the site in Bridge Road, Glebe (see map over the page).

Key dates

Monday 16 January –
Friday 27 January

Location

Bridge Road, Glebe

Fortnightly works update: Monday 16 January – Friday 27 January 2023

Upcoming works will include the following:

- 1) **Conduit Installation.** This work involves saw cutting the top layer of pavement, followed by trenching, duct installation and temporary pavement restoration.
- 2) **Joint Bay Preparation.** This work involves saw cutting the top layer of pavement, followed by trenching and temporary pavement restoration.
- 3) **Conduit Inspection & Cable Pull.** This work involves inspection of the previously installed conduits between each pit or joint bay in preparation for cable pulling works. Once the conduits are inspected, HV cables will be pulled between each pit or joint bay, followed by splicing of cables and temporary pavement restoration. These works are anticipated to be less intrusive than conduit installation and joint bay preparation works.

To minimise community impacts, the noisiest work will be undertaken prior to 12:00am and work will be undertaken in each zone for a maximum of two nights per week (see map below).

Hours of work

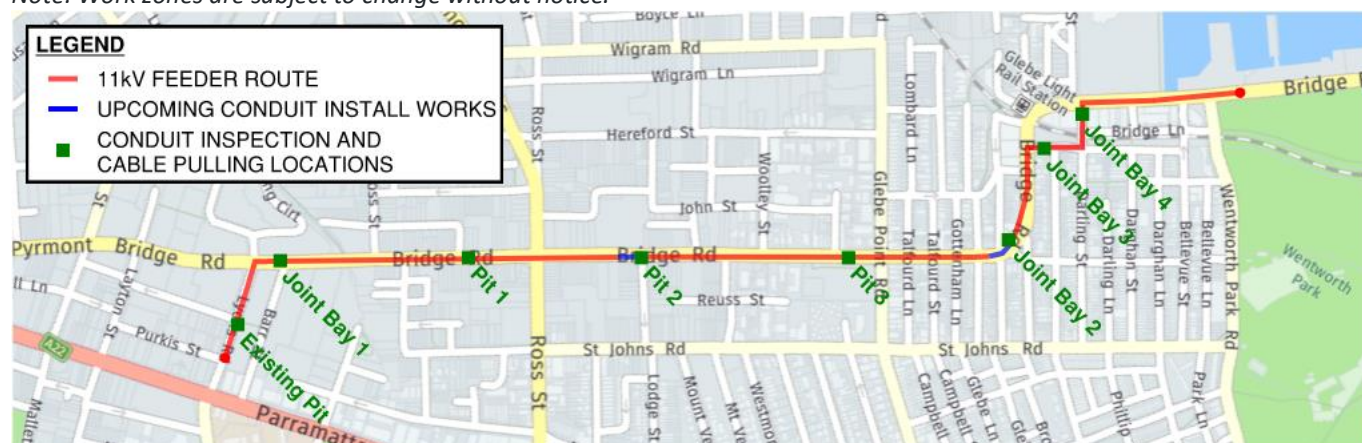

Working hours will be mainly at night and will start after 6:00pm to 5:00am, Sunday to Friday. Please note the hours and start time of each shift will depend on approvals. Works are being undertaken at night to minimise the impact on traffic and pedestrian movement.

New Sydney Fish Market

Location of Work – 16 to 27 January 2023

The approximate location of work zones is indicated on the map below.

Note: Work zones are subject to change without notice.

What to expect

Work zones will be clearly delineated, with traffic control in place to safely guide vehicles, cyclists, and pedestrians around the work zone. Regular traffic conditions and pedestrian access will be restored at the end of each shift.

Bus routes will be maintained with limited relocation of bus stops around work zones when necessary.

Some kerbside parking spaces may be unavailable during the work however driveway access will be maintained.

We understand the impacts this may cause to the local community and thank you for your understanding during this work.

All required road occupancy licences, permits and approvals have been granted.

More information

We are committed to keeping you informed and regular updates will be provided.
