

# M6 Stage 1

## Transport for NSW Depot site establishment at West Botany Street and Bay Street, Rockdale

October 2021

Transport for NSW is building the M6 Stage 1, a four kilometre twin tunnel connection between the M8 at Arncliffe and President Avenue at Kogarah, linking south Sydney to the wider motorway network.

### How will we establish our site?

From Wednesday 27 October work will start to establish our construction site to support tunnelling at the Transport for NSW Depot, corner of West Botany Street and Bay Street, Rockdale.

Work to establish our site will include:

- installing fences and noise walls around site boundaries
- building work platforms and stabilising access roads
- installing site offices and worker amenities
- installing environmental controls and a wheel wash facility for construction vehicles
- removing buildings and levelling ground
- removing vegetation within the site compound

### COVID-19 Public Health Orders

NSW Government restrictions require work to be undertaken in line with the current Public Health Orders.

A COVID-19 Safety Plan is currently in place including wearing face masks and use of QR codes which are strictly enforced.

### Our work schedule

Work to establish our tunnelling site will take up to five months to complete, weather permitting.

Standard construction work hours are:

- **7am to 6pm, Monday to Friday**
- **8am to 1pm, Saturday**

### How will the work affect you?

We understand that our work activities may cause disruption to the local community and we thank you for your patience while this important work is completed.

We are committed to working with local residents and businesses to try to mitigate the impact of our work as much as possible.

Our work can be noisy at times which is why we will be using a range of measures to reduce the impact of our work when we are close to communities.

## What you may notice

You may notice an increase in workers and vehicles in the area.

The safety of the community is our highest priority and we are working closely with our contractor to establish our site safely and implement traffic management plans to reduce inconvenience to motorists, cyclists and pedestrians.

## You are invited to our online forum

We invite you to attend our online forum to be held on **Thursday 14 October from 5pm to 6pm.**

This forum will provide an overview of all our site establishment arrangements and the opportunity for you to ask questions of the project team.

To register to attend the forum, please **RSVP by Tuesday 12 October** by emailing [info@M6Stage1.com.au](mailto:info@M6Stage1.com.au)

Once we receive your details we will send a link to the Livestream session.

You can also scan our QR code to RSVP by using your smart phone or tablet.

## Contact us
