

## Construction notification

### Out of hour steel deliveries via Phillip Street

---

Construction activity is well underway at the Powerhouse Parramatta project site. Over the year, oversized steel deliveries will arrive on site as the structure of the building progresses.

---

#### Key dates

From January 2025 for approximately 12 months.

#### Location

Delivery via Gate 2 on Phillip Street

### Out of hour steel deliveries via Phillip Street

Steel installation plays a critical role in the Powerhouse Parramatta project with deliveries continuing to arrive on site in **January 2025 and for approximately the next 12 months**.

Deliveries will be made via Gate 2 on Phillip Street and exit via Gate 1 on George Khattar Lane. Given the oversized nature of the steel, Transport for NSW mandates that deliveries of this size must occur outside of regular hours. Traffic control measures will be in place to assist vehicle movements, as required.

All works will be undertaken inside the site boundary.

#### Health and safety

There is no expectation for excessive noise during delivery and installation.

Strict environmental and planning controls are in place to manage noise, dust and vibration.

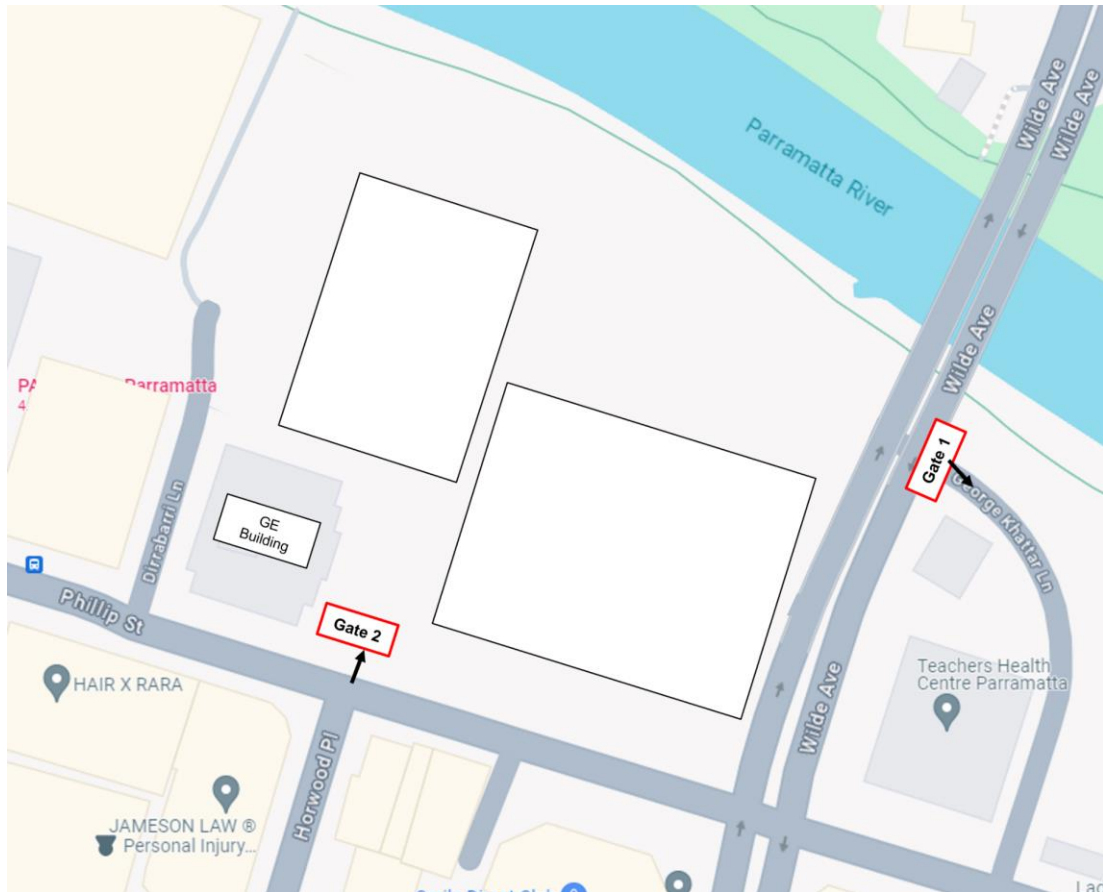

#### Construction hours

Early morning deliveries for oversized loads will take place between **2am and 6.30am**, up to 6 days per week (except Sunday). Trucks will be parked up until 7am for unloading.

All other construction activities will be carried out during the approved construction hours:

- Monday to Friday, 7am to 6pm
- Saturday, 8am to 1pm.
