

A non-stop South Road

T2D → **TORRENS TO DARLINGTON**

Further site establishment works, West Hindmarsh

April 2026

The River Torrens to Darlington (T2D) Project is South Australia's largest infrastructure project and will create a non-stop South Road between Gawler and Old Noarlunga.

What's happening

Following on from previous notifications, site establishment works between the River Torrens and Grange Road and South Road, West Hindmarsh are progressing.

From Wednesday 15 April 2026 site establishment works north of Hindmarsh Avenue will commence. Standard works hours for this site are 7am to 7pm, Monday to Saturday.

Site establishment works will include:

- Installation of site hoarding, access gates and installation of signage on local roads
- Ground levelling and clearing, including tree and vegetation removal
- Relocation of services near the site area and installation of temporary lights
- Hardstand construction and relocating the existing noise wall panels.

Construction is also underway on the soil mound in Langman Reserve, and works will continue until mid-May 2026. This is required to increase ground pressure and improve ground conditions ahead of the construction of the new road and will be in place until later this year. Soil deliveries for construction of the soil mound will continue to occur on day shifts and evening shifts up to 10pm, Monday to Friday.

When

From Wednesday 15 April 2026

Ongoing works

Hours of work

Day works: Monday to Saturday, 7am to 7pm.

Evening shifts: Monday to Friday, 7pm to 10pm.

How this affects you

Hindmarsh Avenue, West Hindmarsh remains closed at the intersection with South Road. Please see detour map for more information. SA Water continues to complete work in the area, please see their communication for more information about their detours.

In addition to this, works adjacent to South Road will be undertaken at night under traffic management to ensure the safety of passing traffic. Where night works are required, nearby properties will be notified in advance.

Some disturbance can be expected such as noise, lighting, dust and vibration. Our construction crews will work to keep disruption to a minimum.

There will be further pedestrian changes implemented on local streets as site establishment progresses. More information will be provided in advance.
