

Construction of the shared pedestrian and cyclist pathway between Kings Road and Bruce Street

M6 Stage 1

August 2025

Transport for NSW acknowledges the Bidjigal, Dharawal, Gweagal and Gadigal clans of the Eora Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

As part of the M6 Stage 1 project, construction of the shared pedestrian and cyclist pathway continues in August 2025.

When we'll be working

Our standard work hours are from **7am to 6pm, Monday to Friday and 8am to 6pm, Saturday.**

We are approved to work out-of-hours from 6pm to 7am, for up to three weeknights per week, no more than two consecutive weeknights and a maximum of 10 nights per month.

Our planned out of hours are: 4, 5, 11, 12, 18, 19, 25, and 26 August.

What work are we doing?

Our day work will include:

- ongoing formwork and concrete work for the shared pathway, footpaths, kerbs, and slabs.
- excavating to install underground conduits and lighting poles for future pathway lighting along the alignment.
- excavating for and installing new drainage and pipes.
- maintaining environmental controls to manage erosion and sediment.

- delivering and removing materials such as gravel, sandstone, concrete, reinforcement, ongoing earthworks, tree pruning, vegetation and tree removal.
- establishing the foundation for the internal haulage road and shared pedestrian and cyclist pathway including the use of a roller.
- investigating existing underground services.
- delivering and relocating oversized plant equipment.
- commencing landscaping work, including planting native plant species and new trees.
- commencing work to upgrade the crossing on Bay Street, including cutting concrete, excavating and trenching as we prepare to install traffic lights.
- commencing work to upgrade the crossing on Bruce Street, including installation of communication conduits, cutting concrete, excavating and trenching.

Our night work will include:

- commencing work to upgrade the crossing on Bay Street, including cutting concrete, excavating and trenching as we prepare to install traffic lights.

What will this mean for you?

During our work, you may notice:

- vehicles entering site via Bruce Street, Bay Street and Kings Road
- temporary traffic, pedestrian and parking changes when we are working close to the footpath or road
- intermittent periods of vibration from the use of compactors and rollers, and noise from machinery and equipment.

September and October out of hours work

Continuing work to upgrade the crossing on Bay Street, including the installation of traffic lights and associated works such as tram ramps and pavement.

Managing our impacts

We will manage dust by using a water cart and manage noise by using squawkers instead of beepers on vehicles and turning off equipment and vehicles when they are not being used. We monitor dust and noise levels to measure our impact to the local community. Respite for one hour will occur every three hours during high impact day activities. High impact work on Saturday will finish by 1pm.

Please follow our traffic signs and the directions of traffic control. Boom gates, barriers and stop-slow traffic management will be in place to ensure the safety of workers and the community when working on or near live traffic. Partial road closures, temporary parking removal, and pedestrian diversions may be in place to facilitate works.
