

Traffic counts at various locations in Wyong from Friday 28 November 2025

Pacific Highway upgrade through Wyong Town Centre

November 2025

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The Australian Government and NSW Government are investing \$420 million to upgrade the Pacific Highway through the Wyong Town Centre.

Transport for NSW have engaged contractors to carry out traffic survey investigations in Wyong Town Centre, to provide Transport with up to date traffic data in the area.

What work are we doing?

Work will include installing temporary traffic monitoring cameras on the Pacific Highway between Church Street and North Road and on Alison Road and Rose Street.

The information collected will not be retained for any other purpose and any data used will be anonymised and not identify any road users/pedestrians.

We have included a map to show the investigation area where the traffic counts will be carried out.

When and where we'll be working

Night work will be carried out from **Friday 28 November** from **5pm to midnight Monday to Sunday**, weather permitting.

Cameras will be installed, monitored and removed, with work expected to be completed in **one week**, weather permitting.

We will let you know in advance if we need to do any work outside these times.

What will this mean for you?

The work will cause no disruption to your property. You may notice workers in high vis clothing, using lighting to carry out the work.

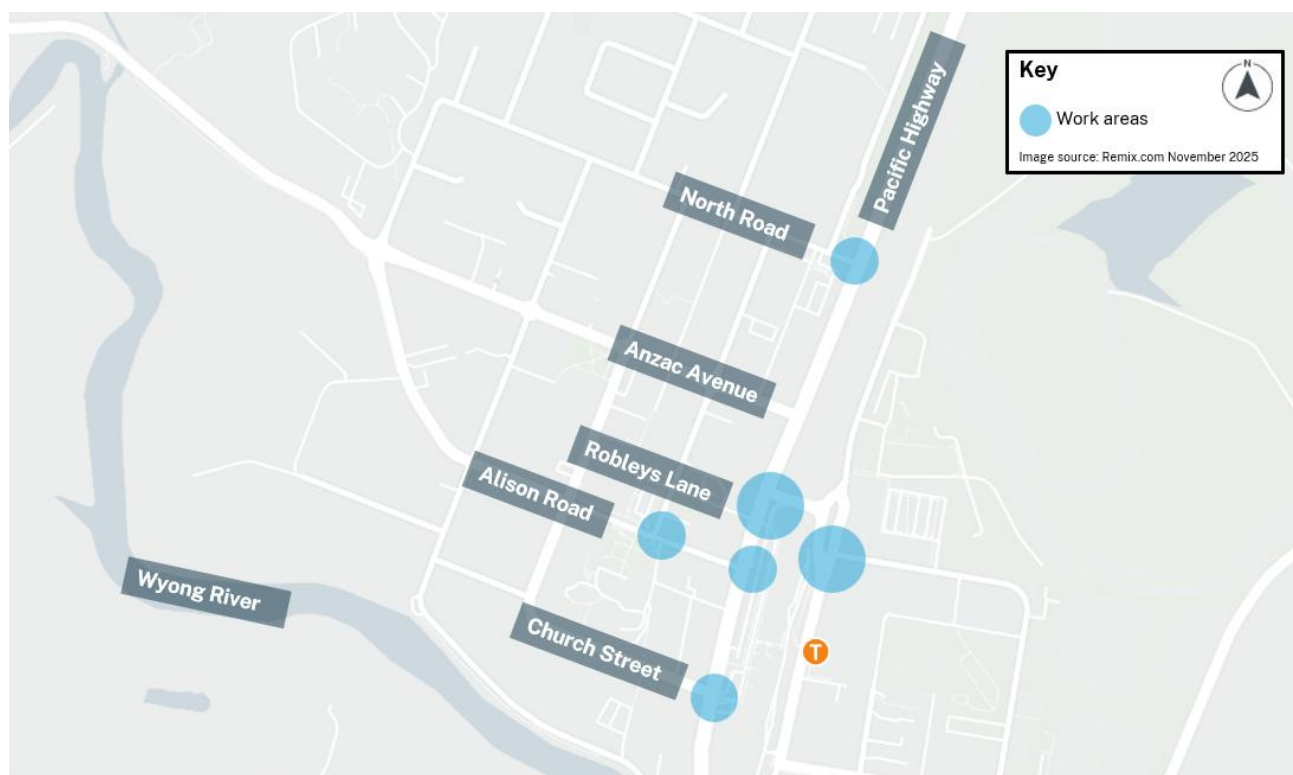

We are making every effort to minimise noise by completing the investigations in the shortest possible time frames.

Driveway access will be maintained at all times.

Thank you for your patience during this important work.
