

Sydney Gateway

Work update

May 2023

Sydney Gateway will provide a new, toll-free connection from St Peters Interchange to improve journey times to Sydney Airport, the M5 and Eastern Distributor.

Our work in May 2023 includes:

Work near the Domestic Terminals

Continuing girder installation on Qantas Drive, Mascot.

Work near the International Terminal

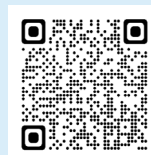

The steel launch nose temporarily attached to the front of the Twin Arch Bridge to facilitate the launch.

- Road widening activities westbound and eastbound on Qantas Drive includes installing underground services, bulk earthwork, barrier installation and new pavement work.
- Night-time steel Flyover girders lifting and fixing activities at the intersection of Robey Street and Qantas Drive, Mascot. Qantas Drive eastbound traffic will be diverted around the worksite via Robey Street during these activities.
- Night-time installation of underground services across O'Riordan Street at Qantas Drive, Mascot.
- Ongoing day and night-time Flyover construction along Qantas Drive and Sir Reginald Ansett Drive, Mascot. Work involves out of hour girder and barrier installation activities with oversize vehicle deliveries.
- Pedestrian Island modification at the intersection of Qantas Drive and Sir Reginald Ansett Drive, Mascot
- Concrete barrier adjustments on Qantas Drive, Mascot near the overhead bridge.

- Ongoing Twin Arch Bridge assembly at our Tempe Lands work site including installation of floor beams and out-of-hours deliveries via Nigel Love Bridge.
- Minor traffic changes and line marking on Airport Drive eastbound near Link Road in preparation for Twin Arch Bridge launch.
- Relocating, removing, and installing utilities on Airport Drive and Qantas Drive, Mascot.

Tempe lands and St Peters

Road support work including asphalting within our Northern Lands work site in St Peters.

- Day-time road works within the Tempe site including asphalting and piling for light poles and road signage.
- Bridge and road support work including asphalting within our Northern Lands work site in St Peters.
- Ongoing construction of the bridge structure on Canal Road, St Peter's, including partial weekend lane closures for utility work during May. The footpath at Canal Road, St Peters will remain closed during this work.

How our work may impact you

We'll use plant and equipment that includes hand tools, welding tools, cranes, grinders, excavators, piling rigs, elevated work platforms, vacuum trucks, ground compactors, vibratory rollers, asphalt pavers, jack hammers, road saws, rattle guns, chain saws, traffic management tools and construction vehicles.

We'll minimise noise associated with this work by using non-tonal reversing beepers on machinery, turning off equipment and vehicles when not in use, using noise mats and noise shielding, where feasible, directing noisy equipment away from properties and other on-site noise reduction measures.

Across multiple locations

Ongoing bridge construction in St Peters.

- Oversized deliveries of bridge structures, materials, and equipment to our work sites at Mascot, Tempe (some via Bellevue Street) and St Peters via Canal Road and Burrows Road. Works include out-of-hours heavy vehicle deliveries, lifting activities and concrete pours.
- Trimming and clearing of trees, vegetation and landscaping across the project.
- Intermittent overnight pedestrian and cycle path closures along Alexandra Canal to facilitate bridge construction. Electronic message signs will confirm dates and times of closures 10 days prior.

Our work hours

Our standard work will take place during the day from **7am to 6pm Monday to Friday** and from **8am to 6pm on Saturdays**. We'll also be working at night usually up to **3 nights a week between 6pm - 7am**.

Some of our work may be done outside of these hours when it's low impact, required for safety reasons or prescribed by regulatory authorities. This includes Sydney Airport regulations which require the use of large cranes to be used at night when planes are not using the Airport.

Traffic (including pedestrian and cycling) conditions will change while we're working. Please plan ahead and follow the direction of traffic controllers.
