

Construction notification

October 2025

Out of hours works – Emergency Façade Rectification Works and Inground Services Works

Construction activity is ongoing at the Powerhouse Parramatta project site. Night works are required to safely complete two separate works – emergency façade rectification works on Wilde Avenue and to fix an inground hydrant line on Phillip Street.

Key dates

From 3 - 8 November 2025
(weather and site conditions permitting)

Location

Phillip Street and Wilde Avenue, Parramatta

Out of hours works

Next week there will be two separate sets of out of hours works taking place.

From **Monday 3 November to Tuesday 4 November 2025 between 7pm and 5am** (weather and site conditions permitting), [inground services works](#) will take place on the eastern side of the project site on Phillip Street.

This work is required to be undertaken at night for safety reasons, as the work area is adjacent to a footpath and road. Night activity will involve:

- establishing an exclusion zone and traffic plan on Phillip Street
- using equipment to carry out the works, including a vacuum truck, tipper, forklift and plate compactor.

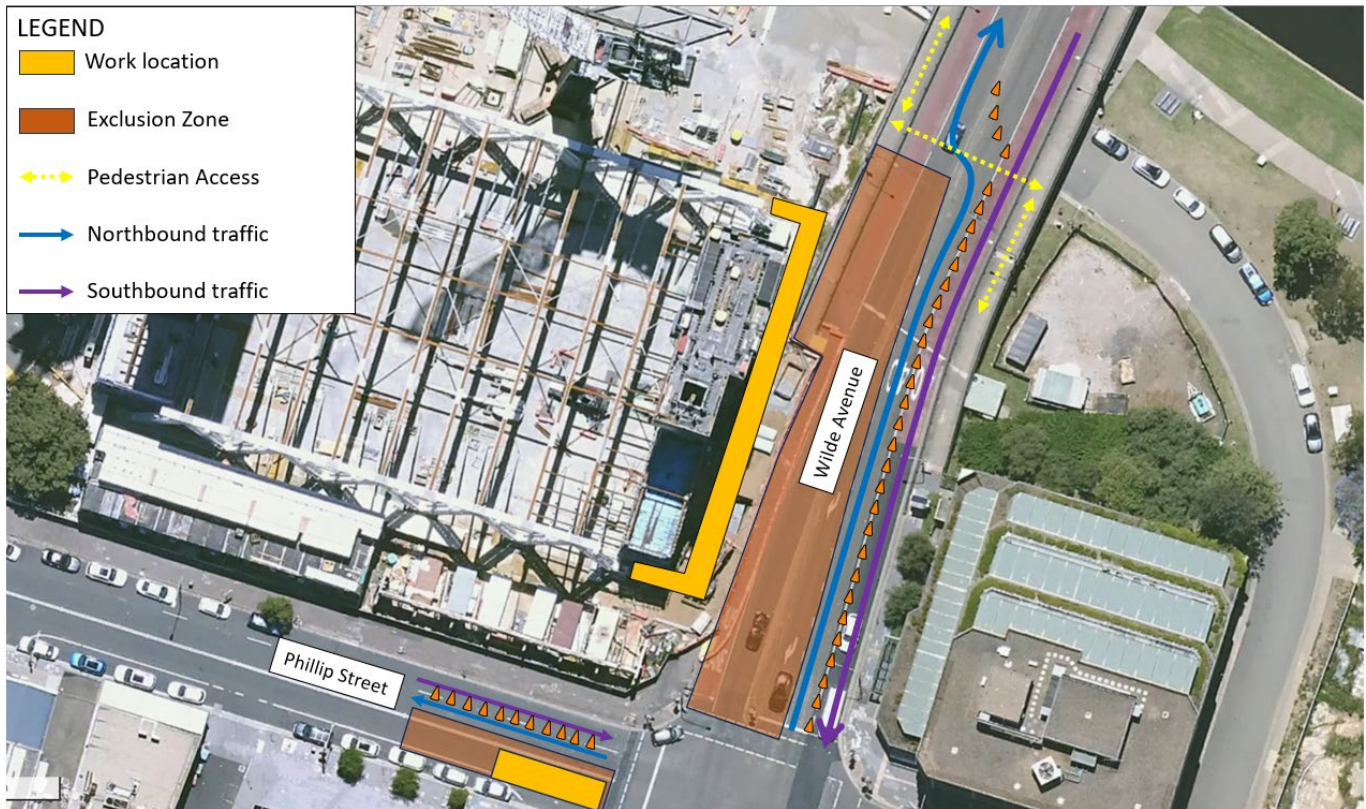

The road and footpath will be returned to existing arrangements each night after the work is complete.

From **Monday 3 November to Saturday 8 November 2025 between 7pm and 5am** (weather and site conditions permitting), [façade rectification works](#) will take place on Wilde Avenue.

This work is required to be undertaken at night for safety reasons, as the work area is adjacent to a footpath and road. Night activity will involve:

- establishing machinery on Wilde Avenue within the exclusion zone
- using hoists to access the façade
- using equipment to fasten bolts for steel as required.

At the end of each night shift, the road and footpath will be returned to existing arrangements.

Traffic and pedestrian management

Pedestrian and vehicle access on both Phillip Street and Wilde Avenue will be maintained at all times. During each night shift, pedestrians and vehicles will be diverted to the eastern side of Wilde Avenue and northern side of Phillip Street.

Traffic control will be in place to manage these temporary changes on Wilde Avenue and Phillip Street throughout each night.

Health and safety

All effort will be made to minimise noisy activities, with a focus on completing noisier activities as early in each shift as possible.

Strict environmental and planning controls are in place to manage noise, dust and vibration.

Construction hours

These out of hours work will take place between 7pm to 5am.

All other construction activities will be carried out during the approved construction hours:

- Monday to Friday, 7am to 6pm
- Saturday, 8am to 5pm.
