

Roadwork and construction activities on President Avenue, Princes Highway and West Botany Street

M6 Stage 1

February 2025

Transport for NSW acknowledges the Bidjigal, Dharawal, Gweagal and Gadigal clans of the Eora Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

M6 Stage 1 will connect President Avenue at Kogarah to the M8 at Arncliffe via four-kilometre twin tunnels, linking southern Sydney to the wider motorway network.

Roadwork and utility upgrades will continue during February along President Avenue, Princes Highway and West Botany Street, as well as within our Rockdale Bicentennial Park and Motorway Operations Centre (MOC3) sites.

What work are we doing?

Roadworks day activities

- Pavement upgrade on Civic Avenue and on President Avenue between Crawford Road and Princess Highway.
- Property adjustment activities on the northern and southern side of President Avenue. Impacted property owners will be contacted directly.

Roadworks day and night activities

- Signage and signal installation, including trenching to install conduits and piling to install equipment, signage and signals on West Botany Street between President Avenue and Bermill Street, on President Avenue between Princes Highway and West Botany Street, and between O'Neill Street and The Grand Parade.

- Investigating, removing, and upgrading watermain and redundant utilities on President Avenue, between Princes Highway and Crawford Road.
- Stormwater drainage upgrades on and across President Avenue, Princes Highway and West Botany Street.
- Footpath and pavement upgrades on Princes Highway between James Cook Boys Technology High School and Green Street, West Botany Street between President Avenue and Green Lane, in Cross Lane and on President Avenue between Princes Highway and Crawford Road.
- Utility and stormwater drainage upgrades and pavement and pedestrian pathway construction at the C6 compound (former 7-Eleven site).
- Traffic signal adjustments at various locations including Princes Highway, West Botany Street and O'Connell Street. This may include minor pedestrian adjustments at these locations.
- Street lighting and power pole replacement on President Avenue between Moorefield Avenue and Civic Avenue, and between Cross Lane and Cross Street.
- Collecting and relocating stockpiled material, delivering and relocating equipment and oversized plant at our compound sites in O'Neill Street, Colson Crescent, Civic Avenue, our Bicentennial Park compound and the C6 compound (former 7-Eleven site).

Roadworks night activities

- Pavement and median upgrades on President Avenue, Princes Highway, West Botany Street and O'Connell Street.
- Excavating and upgrading road surfaces and repainting line markings as required along President Avenue, Princes Highway and West Botany Street.
- Continuing finishing works, including kerbs, gutters and completing the median on President Avenue, between Princes Highway and Crawford Road.
- Upgrading of watermain works on Princes Highway.

Day activities at our Rockdale Bicentennial Park, MOC3 and O'Neill Street construction sites, and on West Botany Street

- Ongoing access and upgrades to utilities (sewer, gas main and electrical infrastructure) on West Botany Street, between Kings Road Footpath and French Street.
- Ongoing utility investigations and monitoring near MOC3, as well as in and around Bicentennial Park and Kirby Industrial Estate.
- Pavement upgrade within O'Neill Street construction site.
- Steel fixing, scaffolding and pouring concrete within the tunnel portal, at MOC3 and for the shared pathway.
- Precast concrete and masonry wall installation within the tunnel portal.
- Internal fit-out, electrical and mechanical installation work and deliveries to MOC3 and for the shared pathway in Bicentennial Park.
- Ongoing excavation, structure and drainage upgrades, dewatering and installation of services and utilities within the tunnel portal and for the shared pathway.
- Vegetation removal, excavation, landscaping, earthworks and construction and installation of retaining wall.
- Stormwater drainage upgrades within Rockdale Bicentennial Park carpark area.

Night activities at our Rockdale Bicentennial Park, MOC3 and O'Neill Street construction sites, and on West Botany Street

- Ongoing gas main relocating and installing electrical and communication conduits, pipes and pits on West Botany Street along Rockdale Bicentennial Park
- Upgrading drainage and relocating electrical utilities at the Kirby Industrial Estate

- Removing and reinstating pedestrian island and pavement adjustments on West Botany Street near French Street
- Ongoing utility investigations and monitoring near MOC3, as well as in and around Bicentennial Park and Kirby Industrial Estate.
- Steel fixing, pouring concrete, precast panel, mechanical and electrical installations at MOC3.
- Ongoing steel fixing, dewatering, precast installation and excavating in Bicentennial Park.
- Pouring concrete in Bicentennial Park for the tunnel portal and shared pathway bridge and concrete work for President Avenue bridge.
- Collecting and delivery of equipment, materials, and oversized plant at MOC3 and Bicentennial Park.

When and where we'll be working

Our standard construction hours are 7am to 6pm, Monday to Friday and 8am to 6pm, Saturday. We are approved to work out-of-hours from 6pm to 7am, for up to three weeknights per week, no more than two consecutive weeknights and a maximum of 10 nights per month per zone.

Planned out-of-hours work dates and zones during February

Zone A West – President Avenue, from West Botany Street to President Avenue Bridge

- Tuesday 4, Thursday 13, Friday 14, Thursday 20, Friday 21, Thursday 27, and Friday 28 February.
- Contingency nights: Thursday 6 and Friday 7 February.

Zone A East – President Avenue, from President Avenue Bridge to O'Connell Street

- Thursday 6, Friday 7, Tuesday 11, Wednesday 12, Tuesday 18, Wednesday 19, Tuesday 25 and Wednesday 26 February.

Zone B – President Avenue, from Oakdale Avenue to Princes Highway

- Tuesday 4, Wednesday 5, Thursday 13, Friday 14, Thursday 20, Friday 21, Thursday 27 and Friday 28 February.

Zone C – Princes Highway, from Green Street to South Street and Cross Lane to Princes Highway

- Tuesday 4, Wednesday 5, Thursday 13, Friday 14, Thursday 20, Friday 21, Thursday 27, and Friday 28 February.

West Botany Street, from the Kings Road footpath to President Avenue and Rockdale Bicentennial Park

- Thursday 6, Friday 7, Thursday 13, Friday 14, Thursday 20, Friday 21, Thursday 27 and Friday 28 February.

East Zone - President Avenue, from The Grand Parade to Crawford Road

- Thursday 6 and Friday 7 February.
- Contingency nights: Tuesday 11 and Wednesday 12 February.

Please note, independent utility companies may undertake day or night work which may result in temporary service interruptions this month. These outages may temporarily affect gas, water, telecommunications, and electricity of certain properties, and may extend beyond the approved work hours for the M6 Stage 1 project. If this is the case, utility providers will send out notifications to affected properties.

What will this mean for you?

Temporary changes to traffic, pedestrian access and parking are in place to safely facilitate work.

- Temporary removal of parking and driveway access will be progressively implemented on the northern side of President Avenue between Princes Highway and West Botany Street and between O'Neill Street and Crawford Road. Impacted residents will be contacted directly.
- On street parking will be permanently removed between 158 and 166 President Avenue to facilitate median construction and future traffic movements and on West Botany Street between President Avenue and Green Lane.
- Temporary lane closures at times on West Botany Street and President Avenue may occur during the delivery and relocation of oversized plant and equipment. Contraflow arrangements will be in place.

- Our out of hours stormwater drainage and signage and signalling work on President Avenue and West Botany Street will involve trenching, hammering, rock breaking, and piling in some locations. You may notice noise and vibration during this work.

Separate notifications have been distributed via letterbox and email to impacted residents for the above works.

Please follow the direction of signage and traffic control. Boom gates, concrete barriers and stop-slow traffic management will be in place to ensure the safety of workers and the community when working on or near live traffic. Temporary road closures and pedestrian diversions may be in place to facilitate works.

Managing our impacts

Properties near our work areas will experience noise and vibration, particularly during certain activities such as rock breaking, piling activities and vibratory rolling.

We regularly monitor noise, dust, and vibration near our sites and ensure appropriate mitigation measures are in place, including:

- using water dust suppression and street sweepers and carrying out air quality monitoring
- using construction methods and equipment that cause less vibration and investigate less noisy or vibratory options
- positioning plant and equipment away from properties, and from each other, while in use
- installing sound walls or temporary fencing with noise blankets using non-tonal movement alarms and noise control kits, such as exhaust mufflers
- pausing high impact noise and vibration activities every three hours to provide respite.
