

# Extended weekend work from 2 April to 6 April 2026

Warringah Freeway Upgrade  
March 2026

Transport for NSW acknowledges the Cammeraygal people of the Eora nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

We are simplifying the Warringah Freeway, making it safer and easier to use, and more efficient and reliable for the benefit of all road users, including public transport users.

From **10pm Thursday 2 April to 9am Monday 6 April 2026**, we will be working in several locations along the Warringah Freeway. With lower-than-normal traffic volumes over the Easter long weekend period, we will implement multiple temporary lane and ramp closures. This means that our work will have a lower impact to the local road networks around the freeway than would be the case during normal traffic periods.

Please refer to map 1 and table 1 on page 2 for more information about the work areas and work activities taking place over the 2026 Easter long weekend period.

## Where

Warringah Freeway northbound and southbound lanes between Milsons Point and Ernest Street.

## When

10pm Thursday 2 April to 9am Monday 6 April 2026

Scan the QR code to view our dedicated weekend work page and stay up to date with the latest information about our weekend work and temporary traffic changes. We will update this page regularly as we progress with any changes to the work, traffic arrangements and road closures.

Throughout the above weekends, multiple ramp and lane closures will be in place in North Sydney and Neutral Bay. Motorists are advised to expect delays, plan ahead and allow additional travel time.

## Fast facts

### Community benefits of working consecutive weekends

Improving construction productivity and ultimately shortening the time our project impacts the community.

Reducing the amount of overall noisy night shifts required by the project.

Reducing traffic impacts during peak periods by completing work when the traffic volumes are lower.

Major night time ramp and lane closures will be in place throughout this period, including:

- Full freeway northbound closure from Sydney Harbour Bridge
- Sydney Harbour Tunnel full northbound closure
- Berry Street northbound on ramp closure
- Falcon Street northbound on ramp closure
- Miller Street northbound off ramp closure
- Southbound outer lane closures closure
- Miller Street southbound on ramp closure
- Military Road southbound off ramp closure
- Falcon Street southbound eastern on ramp closure
- Alfred Street southbound off ramp closure.

High noise impacts and potential vibrations are expected during the upcoming weekend work. The exact impacts will depend on the proximity of your property to the work area. High noise work includes saw-cutting, rock-breaking, hammering, piling, demolition, road pavement work.

# What work are we doing?

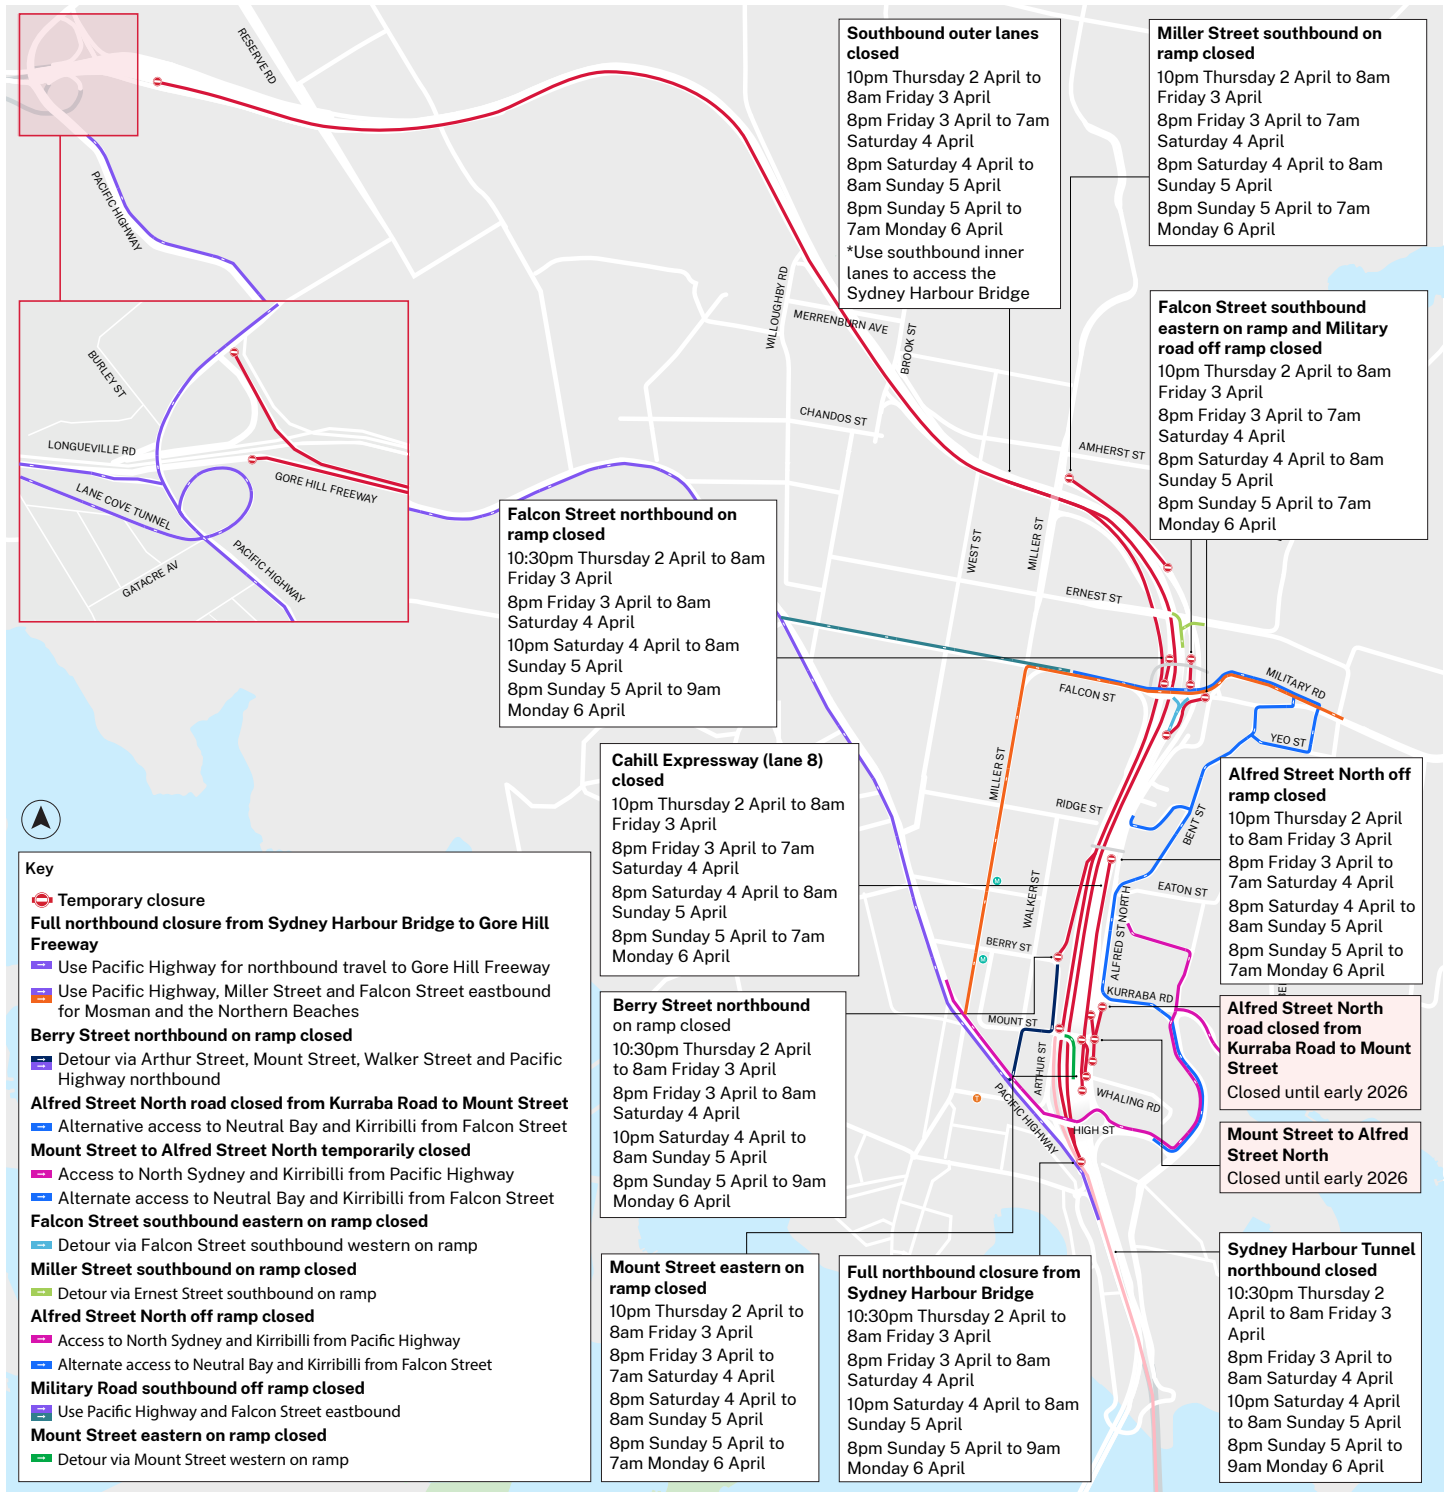

Map 1: Weekend work activity locations from 2 April to 6 April 2026.

Area	Work location	Work activities
<span style="color: green;">■</span>	Military Road northbound off ramp Falcon Street northbound bus only off ramp Warringah Freeway northbound lanes, between Lavender Street and Falcon Street	Excavating, hammering, asphaltting, pavement construction work, installing concrete, linemarking, installing and removing barriers, sawcutting, installing signage, installing Intelligent Transport Systems (ITS), installing drainage and utility services, backfilling and compacting
<span style="color: yellow;">■</span>	Warringah Freeway southbound lanes, between Falcon Street and Lavender Street	Excavating, hammering, asphaltting, pavement construction work, installing concrete, linemarking, sawcutting, installing and removing barriers, installing signage, installing Intelligent Transport Systems (ITS), installing drainage and utility services, backfilling and compacting
<span style="color: pink;">■</span>	Alfred Street North off ramp and Warringah Freeway southbound lanes between Berry Street and Mount Street	Excavating, hammering, asphaltting, pavement construction work, installing concrete, linemarking, sawcutting, installing and removing barriers, installing signage, installing Intelligent Transport Systems (ITS), installing drainage and utility services, backfilling and compacting
<span style="color: blue;">■</span>	Warringah Freeway northbound lanes between Falcon Street and Ernest Street	Asphaltting work

Table 1: Weekend work activity locations from 2 April to 6 April 2026.

# Temporary traffic changes for the weekend shutdown happening from 10pm Thursday 2 April to 9am Monday 6 April 2026

We will notify the community ahead of the next weekend shutdowns and temporary traffic changes in April 2026.

## Managing our impacts and extended weekend work

Some of the work activities will require the use of machinery that generates noise, light, and vibration. We implement extensive controls to ensure any noise impacts are mitigated as much as possible.

To minimise the impact of this work we will:

- turn off machinery when not in use
- use acoustic blankets to minimise noise, where practicable
- direct temporary lighting down and away from properties
- fit equipment with devices to minimise noise, particularly non-tonal reversing beepers.

Our standard Environmental Protection Licence (EPL) conditions permit us to work up to three nights per week and up to ten nights per month, with no more than two consecutive nights of high noise work. We have been granted a temporarily altered EPL in instances where extended work shifts can provide benefits to the community, such as substantially reducing the duration of time it takes to complete a work activity, or when the work cannot be completed during single night work shifts.

The temporarily altered EPL condition allows us to work on four consecutive nights, including public holidays, from **10pm Thursday 2 April to 9am Monday 6 April**. The altered condition will continue to allow work on no more than ten nights per month in each work location.

During the extended work, we will make productive use of the lower traffic volumes to set up road closures and complete as much work as we can over the weekend, expediting the overall project work schedule.

If you have any comments you would like to provide on the planned work activities, or if you have personal circumstances you need to discuss with us, we would like to hear from you. You can contact us at **1800 931 189** or by emailing [whtbl@transport.nsw.gov.au](mailto:whtbl@transport.nsw.gov.au)

For more information on how we manage noise, please refer to our 'Managing Construction Noise fact sheet' available online at [nswroads.work/wfuportal](https://nswroads.work/wfuportal) or scan the QR code.
