

CONSTRUCTION INDUSTRY PORTAL

Infrastructure NSW is collecting information on vaccination rates at construction sites in Greater Sydney. This information will assist the government with making future decisions regarding the construction industry and demonstrate the high levels of compliance already in place. Principal contractors are asked to add data into the Construction Industry Portal on a site basis. We thank you for your cooperation.

Accessing the Construction Industry Portal

Visit <https://industryportal.infrastructure.nsw.gov.au> and click on 'sign up' in the bottom right-hand corner. You will need to create a profile. Please provide your:

- First name
- Last name
- Username (please use your email address)
- Email address
- Create a password (minimum of 8 characters including letters and numbers)

Project site register

Click on Project Site Register where you can add the details for your site. Items marked with a red asterisk are required.

Grouping details

- Please fill in this section if you are adding multiple site details as an industry association, company or project portfolio.

Project details

- Please provide details for the overarching project, including the project name, client type and the principal contractor.

Site details

- Please include the site name and details, rapid antigen testing details, link the site to the project and advise which LGA the site is located.

Vaccination details

- Please provide the relevant vaccination data for the current week (one day during that week is preferred), as well as the total numbers of workers on site.
- This is the only section we are asking you to update regularly.

To log out, please select the button at the bottom right of the screen. All data will remain on the site for your next visit. You can access the portal at any time to update or download your data.
