

M6 Stage 1

Utility investigations at Kogarah from Thursday 21 October 2021

About the M6 Stage 1

The M6 Stage 1 will connect President Avenue at Kogarah to the M8 at Arncliffe via a four kilometre twin tunnel, linking southern Sydney to the wider motorway network.

Latest Update

Between Thursday 21 October and Monday 8 November, we will continue our utility investigations at President Avenue, Civic Avenue, Oakdale Avenue, Traynor Avenue, Lachal Avenue and Cross Lane, Kogarah.

These investigations are being undertaken to inform the final design of the M6 Stage 1.

What does our work involve?

Our work involves carrying out service investigations known as potholing to determine the location of existing utilities under the ground.

Our work will include:

- opening small sections of the road using a concrete saw
- hammering any existing rock with a small excavator
- using a vacuum truck to remove the ground materials
- installing underground CCTV investigations
- backfilling and compacting the work area to reinstate the area.

Our equipment will include but is not limited to a concrete saw, hand tools, vacuum truck, light vehicle, and a compactor.

Our work schedule

Our work will take up to three weeks to complete, weather and site conditions permitting.

Our standard construction work hours are:

- **7am to 6pm, Monday to Friday**
- **8am to 1pm, Saturday**

A map of our work area is shown over the page.

We recently notified you about night work which is also taking place around this time. To view the notification please scan the QR code below.

How will our work affect you?

We expect this work to create some noise when we are cutting into concrete and using a vacuum truck. We will reduce our noise by turning off equipment and vehicles when they are not being used.

For the safety of our workers and the community, we will need to temporarily remove some street parking and make some traffic changes during our work, for safety around our work areas. Please follow our traffic signs and the directions of our traffic controllers. Access to properties will be maintained at all times.

We understand some activities may cause disruption to the local community and we thank you for your co-operation as we undertake this important work.

How are we keeping our sites safe?

The safety and wellbeing of the wider community and our workers is our highest priority. We are working closely with our contractors to make sure COVID safe plans are in place and we are following current NSW Government Public Health Orders.

How will we continue to communicate with you?

We will continue to inform the community in advance about work activities via community notifications delivered to your letterbox.

If at short notice there is a change to the timing of our work, we will provide updates on the M6 Stage 1 interactive portal.

More information?
