Transformer Delivery Schedule

20 November 2026

ACEREZ is transporting 13 large power transformers from the Port of Newcastle to the Sandy Lane Energy Hub in Merotherie.

Seven deliveries of single transformers are scheduled to take place **between 8 December 2026 and 4 February 2027**. Deliveries of the remaining 6 transformers will happen from February 2027.

The delivery schedule may change. We will keep it up to date, adding further delivery dates once confirmed.

Transformer Delivery Schedule

Transformer Delivery	Depart Port of Newcastle overnight on	Arrive at Merotherie on
# 1	8 December 2026	9 December 2026
# 2	15 December 2026	16 December 2026
# 3	11 January 2027	12 January 2027
# 4	14 January 2027	15 January 2027
# 5	20 January 2027	21 January 2027
# 6	26 January 2027	27 January 2027
# 7	3 February 2027	4 February 2027

Example of a transformer under escort

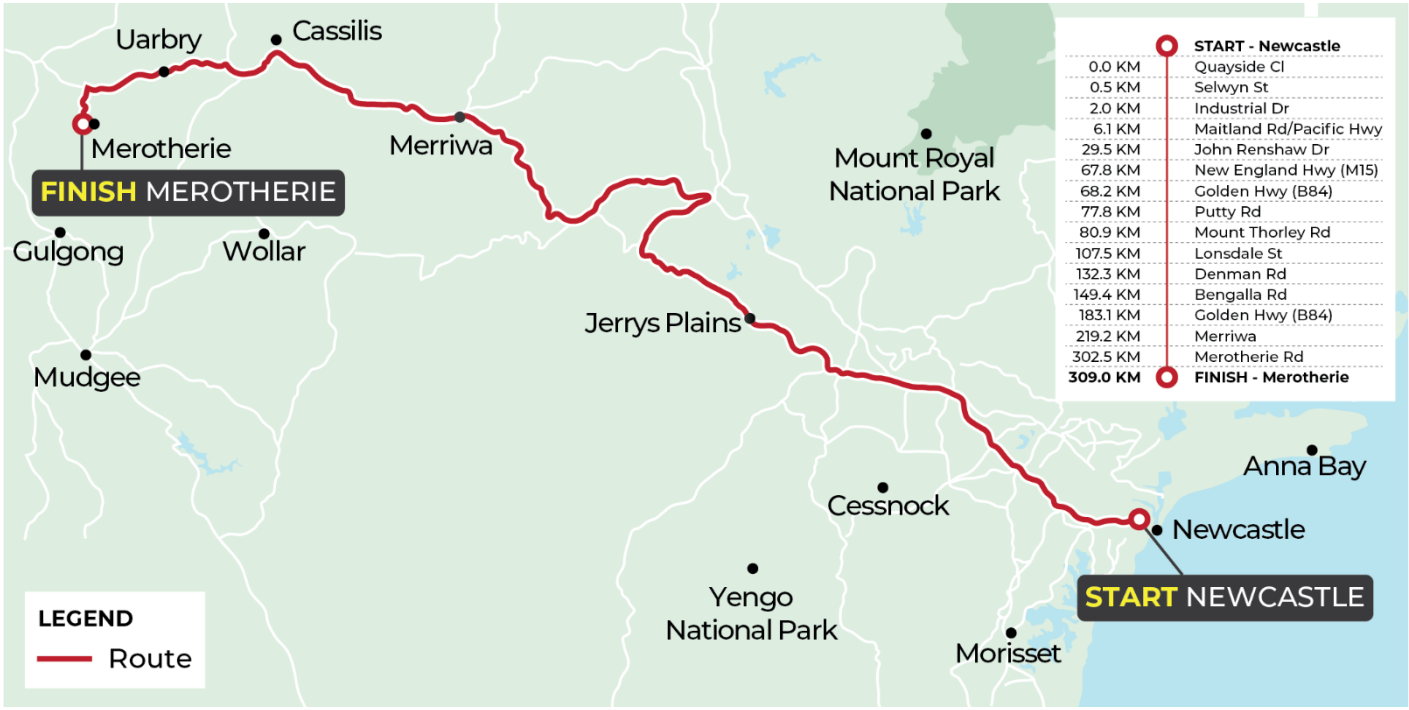

Each oversize overmass (OSOM) load is expected to depart the Port of Newcastle overnight and reach the Sandy Lane Energy Hub at Merotherie later the next day, weather and road conditions permitting.

Road users may experience delays, which can vary depending on slow OSOM traffic speeds, road conditions, weather and operational factors.

Road users should allow for additional travel time and follow the direction of traffic controllers and NSW Police escorts, who will facilitate passing opportunities when safe to do so.

Traffic updates are available on the NSW Government Live Traffic website: livetraffic.com.
