

M6 Stage 1

Night work at Ador Park Precinct, Rockdale from Monday 21 June

Work is continuing at Ador Park Precinct and McCarthy Reserve to build your new and upgraded community recreational facilities as part of the M6 Stage 1 project.

From 21 June we will work to drain excess water from the site and install a new sewer connection to continue building your new amenities at Ador Park Precinct. This work will be done continuously, 24 hours a day.

What does our work involve?

During the day we will excavate to begin draining excess water and install a new sewer connection to the existing sewer pipe. It is critical to the work onsite that the area remains dry and therefore we need to run the generator and pump systems continuously 24 hours a day.

Our work schedule

This work will take up to six consecutive days to complete, between Monday 21 June and Saturday 26 June, weather permitting.

Our work hours will be from 7am Monday 21 June until 1pm Saturday 26 June.

How will our work affect you?

The generator and pump systems will run day and night until the work is completed and may be noisy. The work will be carried out adjacent to West Botany Street, approximately 300m north of Bay Street.

We will endeavor to minimise the impact on nearby residents by:

- using noise blankets where possible; and
- monitoring the noise levels during the work.

Supporting our community

Infrastructure construction projects are considered essential to the economy and will continue as planned across the city and the state.

The M6 Stage 1 project will deliver 5,300 jobs and support the local economy.

The safety and wellbeing of our workforce and the wider community is our highest priority. Our people are following hygiene and appropriate social distancing measures and will continue to do so.

Location of work at Ador Park Precinct, Rockdale

Contact our team

Our team will continue to keep you updated during construction of the recreational facilities and the M6 Stage 1.
