

Weekend work on President Avenue, Kogarah

M6 Stage 1

April 2025

Transport for NSW acknowledges the Bidjigal, Dharawal, Gweagal and Gadigal clans of the Eora Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

M6 Stage 1 will connect President Avenue at Kogarah to the M8 at Arncliffe via four-kilometre twin tunnels, linking southern Sydney to the wider motorway network.

Stormwater and pavement upgrades are progressing during April along President Avenue. Due to the complexity of this work, the safest way to complete it is to work continuously from Friday evening until Saturday evening.

When and where we will be working

We will work on President Avenue, between Oakdale Avenue and Moorefield Avenue, from 6pm Friday 11 April until 6pm Saturday 12 April.

Dates may change due to wet weather. If this work cannot proceed on the scheduled date, it may be rescheduled. Impacted residents and businesses will be contacted directly with any changes to the timing of our work.

What work will we be doing?

- Installing temporary waterfilled barriers on President Avenue to create a work zone (this will be completed prior to works commencing).
- Saw cutting and removing the pavement on President Avenue between Moorefield Avenue and Oakdale Avenue.
- Excavating trenches for stormwater pipe placement, as well as installing new stormwater pipes and pits.
- Removing and repainting line markings.
- Upgrading sections of pedestrian footpath.

- Restoring the road and footpath pavement, packing down our work areas and reinstating existing traffic arrangements on President Avenue by 6pm on Saturday evening.
- Increased truck movement may occur at times to access our compound sites to deliver, collect and store material or equipment.
- Collecting or relocating stockpiled material and delivering or relocating equipment and oversized plant at our compound sites in O'Neill Street, Colson Crescent, Civic Avenue and Bicentennial Park.

What will this mean for you?

- Traffic delays will occur along President Avenue during the weekend. Reduced speed limits, stop-go signage and boom gates will be used to manage traffic. Motorists can use alternate routes such as The Grand Parade, Princes Highway, Ramsgate Road and Barton Street.
- President Avenue reduced to one lane westbound between O'Connell Street and Traynor Avenue, and one lane eastbound between Cross Street and West Botany Street.
- Moorefield Avenue and Civic Avenue will be **temporarily closed** at the intersection of President Avenue. Residential access remains available via Annette Avenue.
- **Temporarily removing** the right turn from President Avenue to West Botany Street. Motorists can use Princes Highway.
- The existing pedestrian crossing from West Botany Street to President Avenue will be **temporarily relocated** west, with traffic control on site to manage pedestrians.

- Bus services will remain available during the weekend. Temporary changes to bus routes and existing bus stop locations on President Avenue will be in place. See map below for bus stop location change.
- We will monitor traffic and may make additional temporary traffic changes to support motorist and pedestrian movements.

Reminder: Temporary local traffic changes are in place at the Moorefield Estate

This means there is no right turn from the Moorefield Estate onto President Avenue until new traffic signals are installed at Moorefield Avenue later this year. Right in to the Moorefield Estate from President Avenue is currently available via Traynor Avenue. The following changes are also in place:

- Lachal Avenue: left in and left out only.
- Cross Street: left in and left out only.
- Oakdale Avenue: left in and left out only.

Managing our impacts

This work will be disruptive and noisy at times, and we thank you for your patience. To reduce the impact of our work we will:

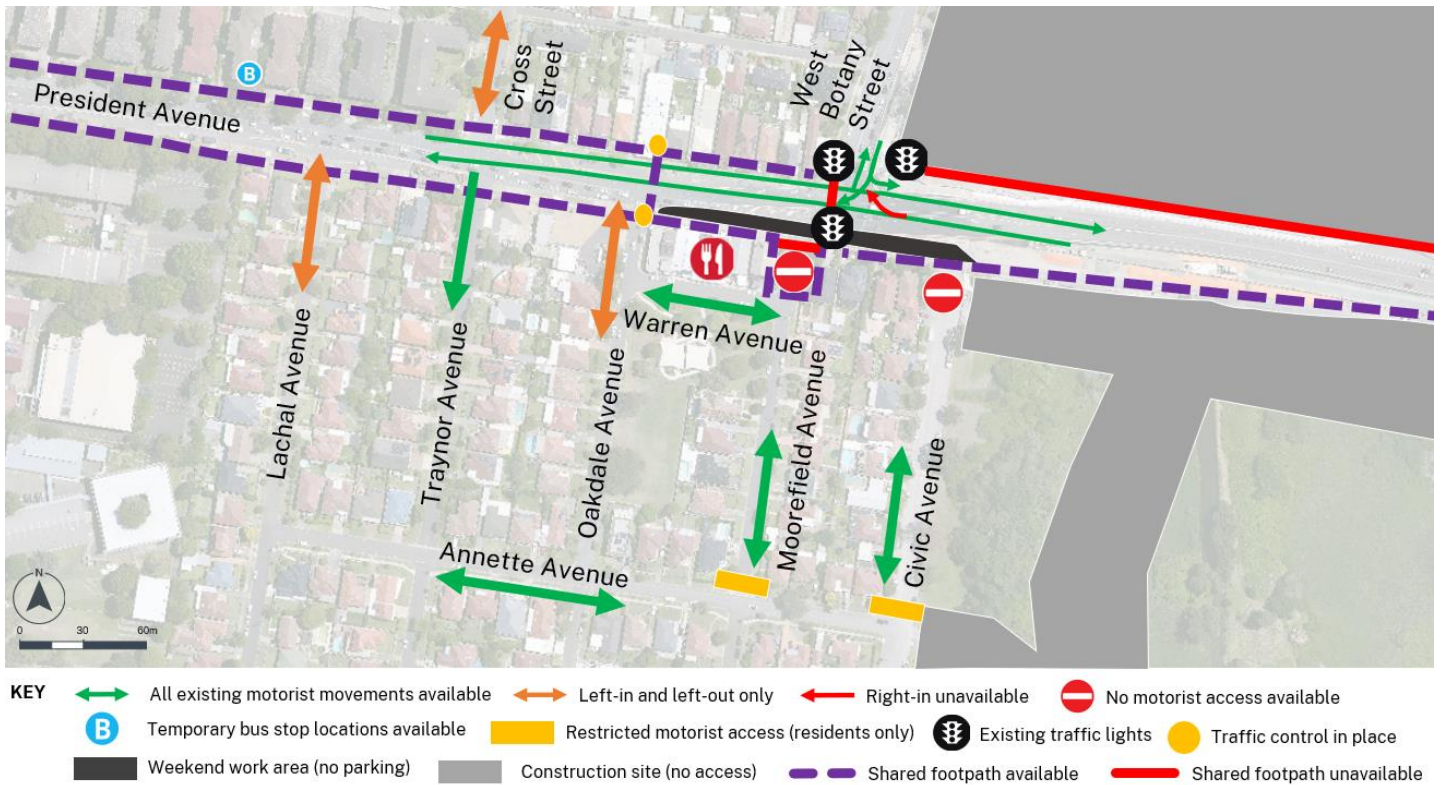

- limit the use of noise and vibration-generating equipment
- install temporary fencing and noise screening blankets (where required and safe to do so)
- provide respite by limiting high noise impact works after midnight where feasible.

Local businesses access

Moorefield Estate business access will be available via Oakdale Avenue, Traynor Avenue and Annette Avenue with parking available on Warren Avenue. Follow the direction of updated traffic and parking signage.
