

Construction notification

August 2022

## Tower crane 1 installation

Construction activity is well underway at the Powerhouse Parramatta project site. The next phase of construction involves the installation of three (3) free standing tower cranes to assist with the movement of heavy materials on site. Each crane takes approximately 4-5 days to install and is crucial to operations on site as the project progresses.

### Key dates

1 – 5 September 2022 (except Sunday).

### Location

Delivery via Phillip Street, Powerhouse Parramatta construction site.

## Tower crane delivery and installation

The establishment of tower crane 1 is scheduled from 1 September to 5 September 2022 (Sunday excluded) in three stages:

- Tower installation on Thursday 1 September and Friday 2 September
- Machine deck and jib installation on Saturday 3 September
- Testing and commissioning on Monday 5 September.

Deliveries will be made via the Phillip Street site entrance. It is a requirement of Transport for NSW that deliveries of this size occur out of hours. Traffic control will be in place to support vehicle movements.

All works will be undertaken inside the site boundary.

*Please note this work may be rescheduled due to unforeseen circumstances of inclement weather.*

## Health and safety

There is no expectation for excessive noise during delivery and installation.

Strict environmental and planning controls are in place to manage noise, dust and vibration.

## Construction hours

Early morning deliveries for these wide loads will occur between 3:30am and 5:30am on all days (except Sunday). Trucks will be parked up until 7am for unloading.

All other construction activities will be carried out during the approved construction hours:

- Monday to Friday, 7am to 6pm
- Saturday, 8am to 1pm.

There will be no work on Sunday unless a delay is encountered.

## Location of works
