

# Ongoing construction of the shared pedestrian and cyclist pathway from Civic Avenue to Chuter Avenue

## M6 Stage 1

April 2024

Transport for NSW acknowledges the Bidjigal, Dharawal, Gweagal and Gadigal clans of the Eora Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

M6 Stage 1 will connect President Avenue at Kogarah to the M8 at Arncliffe via four-kilometre twin tunnels, linking southern Sydney to the wider motorway network.

Construction of the shared pedestrian and cyclist pathway continues in April. Once the pathways are constructed, we will provide renewed natural landscapes, green spaces, and recreational facilities for the community to enjoy.

### When and where we'll be working

Work continues between Civic Avenue and Chuter Avenue through Scarborough Park. Our standard work hours are from **7am to 6pm, Monday to Friday and 8am to 6pm, Saturday**.

Dates and timing of work are subject to change depending on weather and site conditions.

### What work are we doing?

#### Our daytime work will include:

- construction of the pedestrian bridge, including excavating and pouring concrete for the spiral ramp on President Avenue
- building temporary foundations to support large plant equipment, including piling rigs
- upgrading drainage in Scarborough Park
- replacing existing site gates with new gates

- excavating for underground utility conduits and light pole footings for future pathway lighting
- delivery of materials, such as gravel, sandstone, concrete, reinforcement, ongoing earthworks, and vegetation removal
- maintaining environmental controls to manage erosion and sediment, as well as dust and noise mitigation
- installing piles for the foundation of Scarborough Park boardwalk.

#### Our nighttime work will include:

- delivery and removal of oversized plant from Chuter Avenue.

Our equipment for day and night work includes excavators, cranes, piling rigs, tippers, telehandler, mulcher, stump grinder, concrete pumps, concrete trucks, concrete saws, compactors, rollers, hand tools, trucks and light vehicles, such as utes.

### What will this mean for you?

The footpath in Scarborough Park (from Civic Avenue to Chuter Avenue) remains closed throughout 2024. Access to Scarborough Park and Civic Reserve is maintained through alternate entrances on Civic Avenue near the intersection of Marshall Street and south of the intersection at Annette Street, as well as on Chuter Avenue near the intersection of Robinson Street.

Temporary lane closures on the southern side of President Avenue and in Chuter Avenue may occur during the delivery and relocation of oversized plant. Oversized plant will be moved to and from site during nightshift in line with road safety plans.

The pedestrian pathway on the southern side of President Avenue remains temporarily closed with pedestrian and cyclist access available on the northern side.

## Managing our impacts

We will manage dust by using a water cart and manage noise by using squawkers instead of beepers on vehicles and turn off equipment and vehicles when they are not being used. We use noise and dust monitoring to measure our impact to the local community.

Respite for one hour will occur every three hours during high impact day activities (this will usually be at 11am and 3pm Monday to Friday and at 11am on Saturday).

## Location of work area

## Scarborough Pond

The new boardwalk in Scarborough Park has been designed to maximise the view across Scarborough Pond for residents to enjoy, as they travel along the shared pedestrian and cyclist pathway. Work to create the foundation of the new boardwalk continues throughout April.
