

M6 Stage 1

What to expect from our ongoing finishing works

May 2024

Transport for NSW acknowledges the Bidjigal, Dharawal, Gweagal and Gadigal clans of the Eora Nation Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

As previously advised, we will continue finishing work on Princes Highway, President Avenue and surrounding street. This will include upgrading the kerbs, gutters, pavement, as well as completing new medians, line marking and asphaltting.

This work will take place from **8pm to 5am** on the following nights this week:

- Zone A East: 19 and 20 May
- Zone A West, Zone B and Zone C: 21 and 22 May

For more information and work locations, please scan the QR code to [view our latest notification](#).

The initial asphalt layers may appear unfinished. Night scheduled work over the coming weeks will complete the final layer for a smooth finish.

What to expect

- This work will be noisy and cause vibration at times. We will implement mitigation measures

to help reduce the impact of this work on local residents as much as possible.

- During certain activities, you may notice clouds of steam (as the material gives off heat) and/or misty water suppression. This can sometimes look like dust.
- Driveways and roads may be temporarily blocked. Please speak to traffic control on site if you are having issues with access.
- Machinery used for paving has a built-in dust extractor to help reduce dust.

- Asphaltting may generate debris. We encourage you to move any vehicles at least 50m from the work area. Street sweepers will clean up any leftover debris the following day, if required.
- Flashing lights and lighting towers will be used for worker safety. These will be angled away from bedroom windows as much as possible.

If you have any questions during the work, please speak to a traffic controller on site or call 1800 789 29.
