

Temporary changes to Marrickville Road, Marrickville

January 2025

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present .

Transport for NSW is improving traffic efficiency on Marrickville Road, Marrickville.

We're planning temporary changes to reduce congestion and improve traffic flow around the Marrickville Road and Silver Street intersection.

These changes will remain in place for one year, after which traffic conditions will be evaluated to make further decisions.

Why are these changes needed?

Vehicles turning right from Marrickville Road into Silver Street are slowing traffic by creating queues on Marrickville Road, particularly during busy morning periods.

These queues affect bus reliability and journey times for drivers.

Proposed temporary changes

We plan to make the following temporary changes:

- convert four P1/4 parking spaces on Marrickville Road (westbound near Silver Street) into a *No Parking* zone between 6am to 10am
- add Keep Clear pavement markings at the intersection, to make right turns into Silver Street more efficient and reduce vehicle queuing.

Project benefits

These changes will reduce congestion on Marrickville Road, improve bus reliability and journey times and make right turns into Silver Street safer and more efficient.

Details of proposed changes

No Parking zone: allows vehicles to stop for up to two minutes to drop off or pick up passengers or items. Drivers must stay within three meters of their vehicle and cannot leave it unattended.

The proposed *No Parking* zone on Marrickville Road will operate from 6am to 10am to keep traffic moving more efficiently and ease congestion.

Keep Clear zone: markings are painted on the road to ensure intersections or driveways stay clear, making it easier for vehicles to turn or enter roads safely.

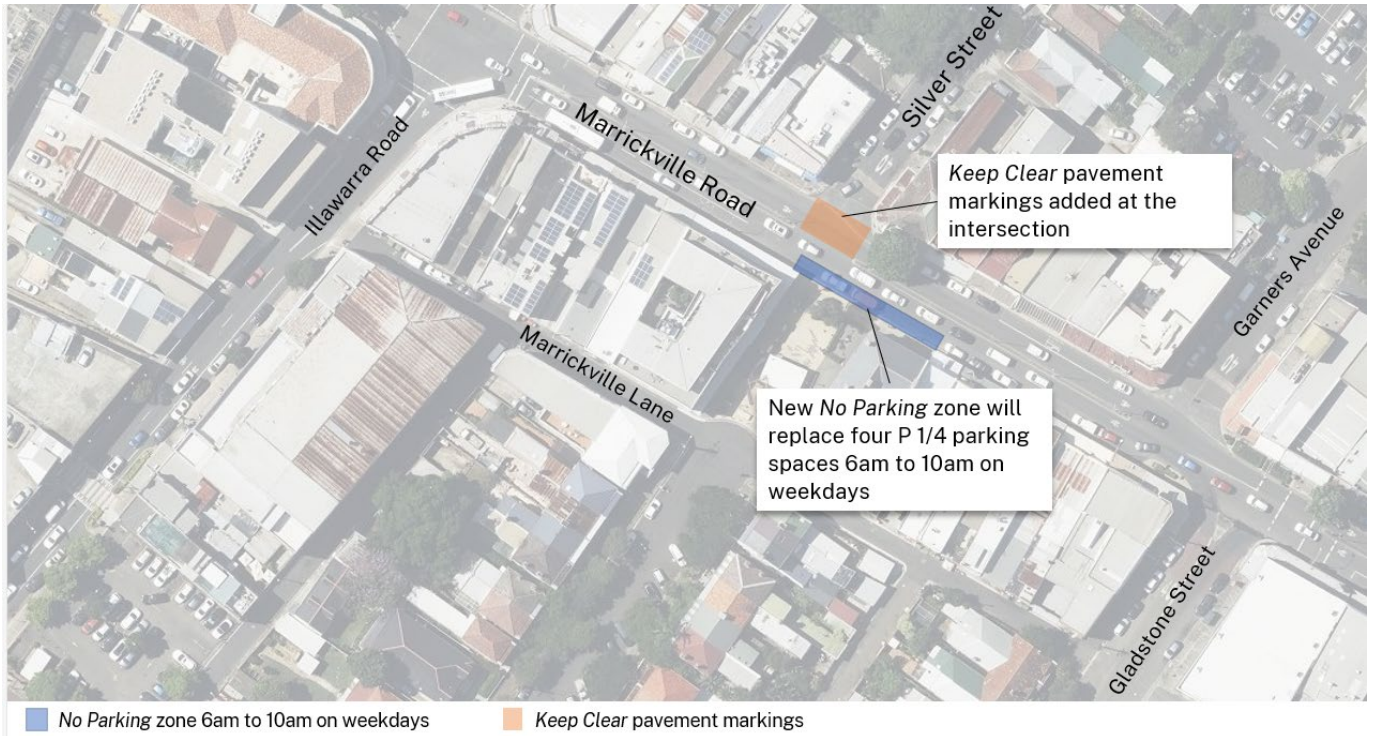

At the Marrickville Road and Silver Street intersection, this will ensure right-turning vehicles don't hold up traffic.

P1/4 parking zone: where vehicles can park for a maximum of 15 minutes (¼ of an hour).

In the proposal, four P1/4 parking spaces on Marrickville Road will become a *No Stopping* zone between 6am and 10am to improve traffic flow.

Location of proposed changes

Next steps

These temporary changes will be trialled for one year, with a review at the completion of the trial period to determine next steps. Intermediate reviews will also address any emerging issues.

If you have any feedback, questions or concerns, please contact the project team by **Friday 31 January 2025** via projects@transport.nsw.gov.au or 1800 684 490.

We will notify the community again before these changes are implemented.
