

Construction notification

January 2023

## Out of hour steel deliveries

Construction activity is well underway at the Powerhouse Parramatta project site. Over the year, large oversized steel deliveries will arrive to site as the structure of the building progresses.

### Key dates

From 30 January 2023 for approximately 12 months.

### Location

Delivery via Gate 2 on Phillip Street

## Out of hour steel deliveries via Phillip Street

Steel installation will form a critical part of the Powerhouse Parramatta project and deliveries will arrive to site over the year from approximately 30 January.

Deliveries will be made via Gate 2 on Phillip Street and exit via Gate 1 on George Khattar Lane. Due to the oversized nature of the steel, it is a requirement of Transport for NSW that deliveries of this size occur out of hours. Traffic control will be in place to support vehicle movements as required.

All works will be undertaken inside the site boundary.

## Health and safety

There is no expectation for excessive noise during delivery and installation.

Strict environmental and planning controls are in place to manage noise, dust and vibration.

## Construction hours

Early morning deliveries for wide loads will occur between 3:30am and 5:30am, up to 6 days per week (except Sunday). Trucks will be parked up until 7am for unloading.

All other construction activities will be carried out during the approved construction hours:

- Monday to Friday, 7am to 6pm
- Saturday, 8am to 1pm.

## More information

We are committed to keeping you informed and regular updates will be provided.
